# HAMMBREAKER 150 EW

Technical data & Power

## AREAS OF APPLICATION

Reclaimed wood

Construction waste

Concrete & asphalt

## THROUGH CAPACITY

Construction waste	Ø 60 - 80 t/h
Concrete/asphalt	Ø 50 - 70 t/h
Reclaimed wood	Ø 5 - 10 t/h

## INSTALLED SHAFT TYPE

The heart of the Hammbreaker 150 EW is our single-shaft technology with a tangential shaft. Whether concrete, construction waste, or scrap wood – this shaft is built precisely for such tough applications and makes short work of everything.

**HAVE WE TALKED ABOUT THE PRICE YET?**
